

## CATACUP

11/17 - 11/21/2021

Setting sail on November 17-21, 2021, the Cata-Cup, organized by the St Barth Multihulls association, returns to St Barthélemy. This association is motivated to provide the best possible show for the participants and the spectators. As many as sixty teams vie to win the competition, sailing on high-tech catamarans. Departing from St Jean, intense battles often ensue as they race toward the finish line. Who do you think will be victorious this year? The participants come from around the world and there is a local contingent as well. Get ready for the 13th edition of the Cata-Cup, which promises to be quite spectacular!

## PITEA DAY

11/6 - 11/7/2021

Piteå is a town in Sweden, which measures 24.87 square kilometers, about the same size as St Barthélemy. For the past 43 years, since 1978, Piteå Day has taken place to celebrate the twinning of Saint Barth and Piteå, as Saint Barth was previously owned by Sweden. Originally held in August, Piteå Day is now in November with a variety of activities including the Gustavialoppet.

## ST BARTH GOURMET FESTIVAL

11/10 - 11/14/2021

Saint Barth is, as usual, impatiently awaiting the next edition of the St Barth Gourmet Festival, which takes place on November 10-14, 2021. This year, the island of St Barthélemy extends a warm welcome to no fewer than 11 internationally acclaimed chefs who come to the island to share their culinary prowess. The participating hotels and restaurants await their flavorful visits, as they take you on a journey into the world of French gastronomy with their culinary excellence. Each of them has a different approach and will do their best to surprise you. We are happy to celebrate the 2021 edition with you, given that last year's health regulations made it impossible to host the event.
